Ragtime Annie - Kickoff

Quite often a guitar can do a kickoff for a song. This serves to establish the tempo of the song and a reference point for the other instrumentalists to “jump-in” at the proper time. This is a simple kickoff in C major and is 4 measures long. You will be able to use this kickoff on just about any song in the Key of C Major

Play these hammer-ons very smoothly and keep the tempo even as well. This is quite a simple kick-off, but it is also very effective. .

The pickup notes are usually played in the last 1 or 2 beats of the last measure of the kickoff, keeping the timing correct is essential to start things our right. In this version of Ragtime Annie, there are no pickup notes, so the kickoff can be played as indicated here.
